Key Points and Issues For April 2009

Director's Note

While global economic data continues to signal significant economic weakness, investors are reacting to the so-called “second derivative” effect – meaning that the rate of decline is decelerating – by bidding up the higher-risk segments of virtually every asset class. For example, the S&P 1500 Index was up 10.28% for the month of April. Within this index, the two best-performing sectors were those that will benefit the most from a potential economic recovery – financial services (+20.9%) and consumer discretionary (+18.9%). The performance of international markets was comparable to the U.S. The MSCI EAFE index was up 13.0%, with financial services and consumer discretionary stocks up 23.8% and 20.0% respectively. Finally, within the fixed income markets, investment grade corporate bonds and high yield bonds significantly outperformed U.S. Treasuries.

While the fund continues to significantly outperform the Council’s benchmark for the fiscal year-to-date period, we did underperform for April by approximately 95 bp (actual performance was +4.35% versus the benchmark return of +5.30%). Even though we did make significant shifts in the public equity portfolio (discussed below), it was difficult (and undesirable) to make changes large enough to keep up with the speed and sharpness of the improving market environment.

Total Pension Funds

- For the month of April, the fund was up 4.35% versus 5.30% for the benchmark. (Note: The benchmark as calculated since January is based on the new asset allocation plan adopted by the State Investment Council™ in December 2008.) Estimated performance for the pension funds for the fiscal year-to-date period through April 30, 2009 is -19.05% versus -21.97% for the Council benchmark. Our outperformance for the fiscal year is attributable to (1) our overweight position in domestic and international fixed income relative to public equities, (2) our underweight position in commodities relative to the benchmark, (3) our underweight position in financial services stocks in both our domestic and international equity portfolios, and (4) our large shift into corporate bonds late in 2008. Total pension fund assets as of April 30, 2009 were \$60.5 billion, up from \$57.8 billion as of March 31, 2009.
- The major activity in April was in the international equity portfolio, where we were net buyers of \$638.4 million, consisting primarily of the iShares MSCI Japan Index Fund (an exchange-traded fund that invests in a basket of stocks that comprise the MSCI Japan Index). We were net sellers in April of \$52.3 million in U.S. equities in Common Pension Fund A, consisting primarily of stocks in the telecommunications sector. In addition, we sold \$73.1 million of investment

grade corporate bonds that were purchased in our equity portfolio late in 2008. Within our domestic fixed income portfolio, we were net sellers of \$170.7 million of investment grade corporate bonds and \$430.5 million of TIPs. Finally, we funded an additional \$108.0 million in commitments to various alternative investments in April.

- We transferred \$600 million out of Common Pension Fund B (domestic fixed income) in April. Of this amount, \$250 million was transferred into Common Pension Fund D (international), \$100 million was transferred into Common Pension Fund E (alternatives), with the remaining \$250 million transferred into the pension fund cash balances to fund anticipated net benefit payments from the fund.

Domestic Equity

- Performance for Common Pension Fund A for April was 9.39% versus 10.28% for the S&P 1500 Index, the benchmark for the domestic equity portfolio. For the fiscal year-to-date period, Common Pension Fund A returned -27.47% versus -30.12% for the benchmark. The major positive factors contributing to overall relative performance for the fiscal year continues to be the fund's underexposure to the financial services sector.
- As stated above, net sales of equities in the portfolio in April were \$52.3 million. Net sales were concentrated in the telecommunications sector, with the major sales being \$92.8 million of AT&T and \$16.6 million of Sprint Nextel. We also transferred two energy positions – Weatherford and Noble – to Common Pension Fund D at current market values given that both companies have re-domiciled from the United States. Major purchases in April were in the steel and software industries. The names added in these industries were Nucor (\$47.7 million) and Steel Dynamics (\$41.0 million) within the steel industry and Oracle (\$30.4 million) within software. In addition, we sold \$73.1 million of investment grade corporate bonds that were purchased as part of the equity portfolio in late 2008 at yields of 8% or higher. Finally, we wrote covered calls on a basket of approximately \$350 million of individual equity issues.

Domestic Fixed Income

- Performance for Common Pension Fund B for April was -0.99%, and -0.28% when excluding our TIPs and high-yield portfolios contained within Common Pension Fund B. This compares to -1.47% for our new custom benchmark for domestic fixed income, the Barclay's Long Government/Credit Index (which also excludes TIPs and high yield) with a 50% weight for U.S. Government securities. For the fiscal year-to-date period, Common Pension Fund B (excluding TIPs and high yield) returned 1.70% versus 0.89% for the council benchmark (which prior to January 2009 was the unadjusted Barclay's Long Government/Credit Index). The duration of Common Pension Fund B (excluding TIPs) was 10.21 years as of

April 30, 2009, versus 11.22 years for the adjusted Barclays Long U.S. Government/Credit Index.

- We had net sales of approximately \$170.7 million in domestic corporate bonds in April. Sales were concentrated in the financial services sector, where we sought to further reduce our exposure into renewed investor appetite for such securities. Major financial names that were sold included American Express, Citigroup, Hartford Financial, JP Morgan Chase, Lincoln National, Metlife, Prudential and State Street. Purchases were primarily in the new issue markets, where new deals continue to come at attractive concessions to outstanding debt. Names that were added include Verizon and Emerson Electric. Finally, we participated in one of the first so-called “Build America Bond” issues - \$10 million of the recent NJ Turnpike Authority issue.
- After strong returns in March, we decided to reduce our TIPs portfolio – selling approximately \$430.5 million in April. The TIPs portfolio now represents 5.22% of the overall pension fund, versus 5.00% for the Council benchmark.

International Equity/Fixed Income

- The equity portion of Common Pension Fund D returned 11.77% in April versus a return of 13.39% for the MSCI EAFE Index ex-Prohibited, the benchmark for the international portfolio, which is calculated by the Division and excludes those names deemed ineligible for investment under the State’s Sudan and Iran Divestment Laws. For the fiscal year, the portfolio was down -38.04% versus -38.24% for the benchmark. Our portfolio of international sovereign bonds returned -0.07% for the month and 12.76 for the fiscal year-to-date period.
- We were net buyers of \$638.4 million in international developed markets equities in April, with the major purchase being \$675.1 million of the iShares MSCI Japan Index Fund (an exchange-traded fund that invests in a basket of stocks that comprise the MSCI Japan index). In recent months, we were significantly underexposed to the Japanese market, and the Japan ETF gave us the best opportunity to quickly increase our exposure. In addition, there were other large moves in the portfolio designed to increase our exposure to stocks that will benefit from the prospects of an improving global economy. The major purchases were in the financial services, consumer staples and consumer discretionary sectors. Names that were added include HSBC and Societe Generale in financial services, Unilever and Wesfarmers in consumer staples, and Michelin and Renault in consumer discretionary. The major sales in the portfolio were in the utilities sector. Names that were sold include E.on, Enagas, Scottish and Southern, RWE, National Grid and Veolia.
- As we add back to our Japanese equity portfolio, we wish to hedge a significant portion of the currency risk back into U.S. dollars. As of April 30, \$818.7 million (or 84%) of our equity position is hedged.

- Sina Corp., while incorporated in the Cayman Islands, will be classified as an emerging market company based upon our review of the various factors as set forth in the State Investment Council Regulations.

Alternatives

- During April we funded \$108.2 million of commitments to private equity, real estate and real assets. Major investments include \$8.8 million in the Spider Gold Trust (an ETF that invests in gold), \$9.0 million to Warburg Pincus Private Equity Fund X, \$10.0 million to Avenue Special Situations Fund V, \$9.7 million to NJHL European Buyout Fund (a fund of funds investing in European private equity funds), \$11.3 million to Walton Street Real Estate Fund VI and \$11.5 million to CBRE Europe Fund III.
- The values now reflected on Exhibits 1 and 1a incorporate reported values as of December 31, 2008 (most of which were received in March-April 2009) for virtually all of our funds. These values reflect write-downs in fair values by our general partners for the fourth quarter of 2008 of approximately \$509 million for private equity and \$385 million for real estate.

Cash Management Fund

- Total assets in the Cash Management Fund were \$14.4 billion as of April 30, 2009, versus \$11.6 billion as of March 31, 2008. We believe the increase in assets is primarily attributable state income tax receipts in April. The current yield is 0.72% for state participants (down from 1.08% as of March 31), and 0.62% for “non-State” participants (down from 0.98% as of March 31).

Note:

* Not Yet Funded as of April 30, 2009

(1) Represents investments made to the underlying funds plus capitalized expenses paid, less recallable returns of capital. A portion of the funded amount may not reduce New Jersey Portfolio's remaining commitment to the underlying funds (2) Represents remaining commitments calculated by subtracting total capital contributions for investments and inside expenses from total commitment and adding back recallable returns of capital. A portion of the funded amount may not reduce New Jersey Portfolio's remaining commitment to the underlying funds (and therefore the commitment less the funded amount may not equal the remaining commitment) (3) Represents total proceeds returned by underlying funds, excluding recallable returns of capital (4) Commitment increased by \$250M on 7/20/06 (5) Commitment increased by \$200M on 1/10/06 (6) Commitment increased by \$40.0 million (7) Corresponds to \$25M on 3/15/07 (8) Corresponds to \$59 million (9) Reduced from \$50M to \$40M at closing (10) Increase from £17.5 to £25 million on 5/2/2008 (11) Corresponds to €240.0 million (12) Commitment increased by \$100M on 12/20/07 (13) Corresponds to €106.25 million (14) Commitment increased from 50 to 75 millions. (15) Contribution excess commitment due to dividends reinvested

(a) Commitment increased to \$150M from \$65M on 9/21/06 (b) Commitment increased to \$150M from \$50M on 9/21/06 (c) Commitment increased to \$150M from \$85M on 9/21/06 (d) Commitment increased to \$50M on 4/19/07 (e) Commitment total \$250M b/w RC Woodley Park & Rock Creek Partners Fund I Feb 06 SIC presentation date Aug 06 inception date (f) Commitment increased to \$100M on 9/20/07 (g) Reduced from \$125M to \$113M at closing then increase to 149.5K on 10/31/08 (h) Fund has been fully redeemed \$9,500,000 Return of Capital and \$2,088,761 Realized Gain (i) All original \$450 million worth of notes have matured (j) Represents 64,792,018 Euro Commitment increased by 19.5K on 10/31/08 (MV) Commitment represents the current market value of the public Exchange Traded Index as of 10/31/08. (l) The fund is currently being fully redeemed . (m) Commitments reduced by \$272M, \$25M and \$40M respectively. (R) These funds are being redeemed and distribution represent the current market redemptions. (T) Transferred to Common Pension Fund B
