BANKING AND INSURANCE

DEPARTMENT OF BANKING AND INSURANCE OVERVIEW

Mission and Goals

The mission of the Department of Banking and Insurance is to regulate the banking, insurance, and real estate industries in a professional and timely manner that protects and educates consumers and promotes the growth, financial stability, and efficiency of those industries.

The Department's goals are to ensure the solvency of the financial institutions through regular financial examinations and analysis; to protect the public from unlawful or unfair practices by insurers, financial institutions, and real estate licensees by promptly investigating complaints filed by consumers and aggressively prosecuting violators; to issue licenses to qualified individuals and companies to provide banking, insurance, and real estate services to New Jersey citizens; to improve the efficient and effective review of insurance rates and forms; and to apply technology, where appropriate, to more effectively interact with the public and regulated industries.

FY 2009 Budget Highlights

The Fiscal 2009 Budget for the Department of Banking and Insurance totals \$70.3 million, a decrease of \$1.8 million or 2.5% under the fiscal 2008 adjusted appropriation of \$72.1 million. In addition to its central mission of regulating the banking, insurance and real estate industries, \$29.9 million of the Department's budget is used to fund the activities of the Office of Insurance Fraud Prosecutor in the Department of Law and Public Safety.

Consumer Protection

The Insurance Consumer Protection and Enforcement Unit, the Office of Consumer Finance in Banking, and the Real Estate Commission answer questions and investigate complaints from consumers about insurance, banking, and real estate issues and take action against companies that have behaved improperly. In fiscal 2007, these units recovered more than \$13 million for consumers and collected more than \$2.5 million in fines. In the first six months of fiscal 2008, the Department recovered nearly \$14 million and collected fines of more than \$900,000.

Department Accomplishments

In response to the crisis in the residential subprime mortgage market, the Department, in cooperation with the Department of Community Affairs, established the New Jersey Home Ownership Preservation Effort (NJHOPE). NJHOPE is a voluntary public-private alliance designed to educate and assist New Jersey homeowners with issues related to homeownership and mortgages. The goals of the alliance are to enhance homeownership preservation by providing consumer awareness mortgage products, increased access to credit and loan counseling, and temporary assistance to those in danger of foreclosure.

The continuing progress of the auto insurance reform initiative codified in P.L. 2003, c.89, resulted in the entrance of several companies into the New Jersey auto insurance marketplace and economy. Seven of the top ten national companies now write

business in New Jersey. Since calendar year 2003, New Jersey drivers have received rate reductions and special dividends totaling to savings of more than \$1.2 billion.

The auto insurance reforms of 2003 transformed the marketplace by lowering prices, improving availability and increasing customer satisfaction, but two long-anticipated reforms have yet to be completed. They are: 1) the establishment of a comprehensive schedule of allowable fees for the treatment of auto accident injuries; and 2) the revision of the State's 60-year-old territorial rating map. The first measure, the Personal Injury Protection (PIP) Medical Fee Schedule, is designed to reduce fee disputes between medical providers and auto insurers and moderate this area of cost pressure on consumers. The Department proposed a regulation in September, 2006 establishing the fees but an appellate court stayed implementation in September, 2007 at the request of medical providers. The second measure will increase efficiency by increasing the accuracy of pricing. Implementation of the territorial rating has begun and will occur over a period of one to two years.

Fiscal 2008 represented the third and final year of payments from the Medical Malpractice Liability Insurance Subsidy Fund, provided for in the "New Jersey Medical Care and Responsibility and Patients First Act" of 2004. In December, 2007, the Department distributed over \$16.4 million to more than 1,163 eligible physicians in high-risk specialties and subspecialties to help offset the cost of medical malpractice insurance premiums.

In partnership with other departments and financial services representatives, the Division of Banking and the Office of Public Affairs' Education Unit continued the biannual Financial Literacy Awareness Program aimed at high school students across the state. The program focuses on a basic understanding of saving, budgeting, and use of financial credit. In 2007, the program reached 9,283 students at 183 high schools.

The Department collects five assessments from the industries it regulates, totaling approximately \$92 million. During fiscal 2008, the Department increased the use of lock box services to receive and process these payments. Over 2,500 payments that were previously deposited manually are now processed electronically. As a result, approximately \$62 million in deposits will be credited to the State's accounts on the day they were received.

As part of its continuing effort to identify common functions and business processes, the Department consolidated and streamlined the initial consumer inquiry and complaint functions through the creation of the Consumer Inquiry and Case Preparation Unit. This unit of cross-trained investigators will respond to all initial consumer inquiries and complaints concerning banking, insurance and real estate matters. The Department's goal is to improve efficiency and effectiveness by utilizing computer and telephone technology to track and categorize issues relating to these regulated industries.
