DEPARTMENT OF THE TREASURY OVERVIEW

The Department of the Treasury is a complex and multifaceted Department. The mission of the Department encompasses: (1) Revenue Collection and Generation, which consists of collecting taxes, and operating instant and on–line lottery games that are projected to generate \$687.2 million for aid to education and institutions; (2) Asset Management, which includes advising the Governor on budgeting State revenues and preparing the State budget, accounting for and distributing revenue to all State departments, preparing the State's financial statements; investing and managing 145 funds with a market value of approximately \$63 billion; maintaining and preserving State owned facilities; and buying and selling the State's real property holdings; (3) Statewide Support Services which comprises operating and developing computer and telecommunications systems for all State departments; providing pension and health benefit services for over 570,000 public employees (active and retired); purchasing approximately \$980 million worth of goods and services for all State departments, overseeing 5,500 term contracts used by municipalities and school districts; supervising the design, construction, and restoration of State facilities; negotiating and administering 367 leased facilities; maintaining and managing the vehicles in the State motor fleet; purchasing, storing and delivering over \$40 million of food and supplies to State departments, institutions and correctional facilities; and overseeing the printing and mail services operations of State agencies.

The Department's fiscal 1998 Direct State Services budget recommendation is \$170.7 million, a reduction of \$22.5 million or 12% below the fiscal 1997 adjusted appropriation of \$193.2 million. The fiscal 1998 Budget reduces spending in several areas. Various efficiency initiatives have resulted in reductions in postage, telephone, data processing and materials and supplies costs. Other areas affected by reductions include advertising in the State Lottery, professional services in Taxation and Pensions and Benefits, and maintenance of buildings and grounds in Property Management. Savings are anticipated from the consolidation of revenue management and collection functions currently undertaken by the several state departments under one agency within Treasury. Other reductions to the Department were made to divisions' salary and wages line items. Attrition and a continuation of the voluntary furlough program are anticipated to offset these reductions.

The Department of Treasury's budget is a significant source of State Aid to New Jersey municipalities. About \$749 million in State Aid is recommended this fiscal year. The proposed restructuring of taxes on public utilities will support a distribution of \$730 million to municipalities from these tax sources. In addition, this Budget provides \$54.1 million to fully fund local property tax deductions for senior and disabled homeowners and veterans.

This Budget also includes \$325 million for continuation of the Homestead Rebate Program. Senior citizens and disabled persons are eligible for rebates up to \$500, subject to income restrictions. Other households within a more stringent income limit are eligible for a \$90 homeowners' rebate or a \$30 tenants' rebate.

The Casino Control Commission is responsible for the regulation of the operations of the 13 existing casino hotel complexes in Atlantic City. This includes the licensing of all employees and ancillary companies conducting business with the casino industry. The fiscal 1998 Budget recommendation will provide \$22.5 million in funding from the Casino Control Fund for these activities. The Casino Control Fund is supported by licensing fees.

The Board of Public Utilities (BPU) regulates the rates for such essential services as natural gas, electricity, water, sewer, and telecommunications including cable television. The \$19.9 million allocated to the BPU in fiscal 1998, which is derived entirely from assessments levied against various utilities conducting business within the State, will enable the board to effectively confront and manage such issues as consumer protection, energy tax reform, deregulation of energy and telecommunications services, and the restructuring of utility rates to encourage energy conservation and competitive pricing to industry as a lure for economic stimulation.

The Office of Student Assistance administers student financial aid programs, including Tuition Aid Grants (TAG). With funding of \$137.7 million plus an estimated \$2.3 million in prior year balances and \$1.3 million in federal State Student Incentive Grant funding, TAG will provide approximately 53,380 awards to lower and middle income students at New Jersey's public and independent colleges. The Higher Education Facilities Trust Fund, at \$21 million, and the Equipment Leasing Fund, at \$19.3 million, will fund debt service for the colleges' capital and technological needs. This Budget provides \$18.6 million in aid to the State's 14 independent institutions and \$132 million in aid to the State's 19 community colleges. The fiscal 1998 Budget also funds a new college savings program to help New Jersey families save for the cost of higher education, and a new technology bond fund to help New Jersey's colleges and universities keep pace with rapid technological changes in 1998 and beyond.

PROGRAM CLASSIFICATIONS

46. Student Assistance Programs. The Office of Student Assistance (OSA) was created in but not of the Department of the Treasury by the Higher Education Restructuring Act of 1994 (P.L. 1994, c.48) and charged with administering the student assistance programs established under the Student Assistance Board and the Higher Education Assistance Authority as well as other student assistance programs as determined by law. The Governor appoints the Executive Director of the OSA, who acts as the appointing authority and is responsible for the operation of all student assistance programs. The Executive Director also regularly consults with the Commission on Higher Education concerning student assistance matters.

"Student Assistance Programs" include all student financial assistance programs for eligible residents of the State that are administered under the Executive Director, Office of Student Assistance, and the administrative costs of these financial aid programs. Administrative funds cover all program operations, including computing, printing, mailing, research, and personnel costs.

In fiscal 1998, New Jersey will develop a new college savings program to help families finance the cost of higher education. Interest earned on colleges savings will be exempt from New Jersey tax, and federal tax on these earnings will be deferred until funds are withdrawn from the savings program.

Tuition Aid Grants (TAG) are awarded under the New Jersey Higher Education Tuition Aid Act, N.J.S.18A:71–41 et seq., to all eligible New Jersey residents attending public and independent colleges and universities in New Jersey. Awards for fiscal year 1998 are estimated to range from \$790 to \$4,490 in the public sector or up to \$5,690 in the independent sector. Award size decreases as family ability to pay increases. Ability to pay is determined by a national need analysis system adjusted to meet New Jersey needs, maintained and administered based on responses to the Free Application for Federal Student Aid (FAFSA). The TAG program is the broad–based state student assistance program which provides for coordination with Federal Aid programs. As such, a TAG grant may be held in conjunction with a Federal award, an EOF grant, or State Scholarship award.

Part-time TAG awards are available to students with special needs through the Part-time TAG for EOF Students program.

State scholarships are awarded under the Garden State Scholarship Act of 1977, N.J.S.18A:71–26.1 et seq., to academically meritorious students at participating New Jersey institutions of higher education. Awards under the Garden State Scholarship, Edward J. Bloustein Distinguished Scholars and Urban Scholars programs range up to \$1,000 per year. No awards are available for use outside of New Jersey. Awards are renewable annually based on continued good academic standing.

The Public Tuition Benefits Program (N.J.S.18A:71–77 et seq.) pays college tuition for the surviving spouse or child of a fire fighter, police officer, first aid rescue squad member, or other law enforcement, civil defense or disaster control worker killed in the line of duty. Benefits received under this program are equal to the cost of tuition at public institutions, or equal to the highest level of tuition charged at public institutions for recipients attending independent institutions.

The Minority Academic Careers Program (N.J.S.18A:72F–1 et seq. and N.J.S.18A:72M–1 et seq.) promotes increased numbers of minority faculty at New Jersey institutions by providing up to \$40,000 in loan redemptions for eligible participants who complete their terminal degree and teach at a New Jersey college or university. The undergraduate component of the program seeks to encourage minority students to pursue an academic career path. Faculty advisors are assigned to participating students and the students are eligible for a \$2,000 stipend during their senior year of undergraduate study.

The Veterinary Medicine Education Program (N.J.S.18A:63A–1 et seq.) provides opportunities for New Jersey residents to enroll in veterinary programs at out–of–state institutions because New Jersey does not have its own school of veterinary medicine. The Office of Student Assistance is authorized to enter into contracts with out–of–state schools for the admission of New Jersey students.

Within OSA, the Higher Education Assistance Authority (N.J.S.18A:72-1 et seq.) administers State loan programs and federally regulated programs providing for the guarantee or insuring of loans made by banks, savings and loan associations, credit unions, or other qualified lenders to qualified persons to assist them in meeting the cost of postsecondary education. Various loans are available through the Federal Family Education Loan Program. Loan amounts available for eligible students vary depending upon financial need, grade level, program length, and aggregate borrowing limits. Federal interest subsidies are available to certain eligible students. Parent borrowers with no adverse credit history may borrow up to the cost of education minus aid, with no limit to the aggregate amount borrowed. In addition, the NJHEAA also offers consolidated loans which combine the outstanding loan payments from certain previously disbursed federal guaranteed loans.

A legislatively mandated reserve requirement (N.J.S.18A:72–17) necessitates that the reserve fund shall not be less than either the amount required to acquire defaulted loans during the current fiscal year, or the encumbered reserves required to be maintained on all approved loans outstanding that were approved prior to the effective date of the act, whichever is greater. Federal mandates also require that guarantee agencies maintain minimum reserve levels as part of the agency's guaranty agreement. Additionally, federal regulations restrict the use of any reserve funds to purposes directly associated with the administration of the federal student loan programs as defined within those regulations.

The New Jersey College Loans to Assist State Students (NJCLASS) loan program (N.J.S.18A:72–34 et seq.) is a program of the NJHEAA established to supplement aid available for New Jersey undergraduate and graduate students and/or out–of–state students attending a New Jersey institution. The program is funded from the proceeds of tax exempt bonds issued by the NJHEAA. Under the NJCLASS loan program, the NJHEAA makes student loans to eligible borrowers from the proceeds of the bonds. The NJHEAA reviews all applications to determine the applicants' ability to repay the loan and services loans after disbursement. The interest rate paid by borrowers is set with each bond issue in relation to bond market conditions. There is no restriction on family income. The amount borrowed may not exceed a student's estimated cost of attendance minus all other financial assistance received by the student for the academic period for which the loan is intended.

- 47. Support to Independent Institutions. The Independent College and University Assistance Act (N.J.S.18A:72B-15 et seq.) provides financial assistance to fourteen eligible New Jersey independent colleges and universities based on the number of New Jersey students enrolled at these institutions. This funding helps to ensure that this valuable sector of the State's system of higher education will continue to provide educational opportunities for New Jersey citizens.
- 48. Aid to County Colleges. (N.J.S.18A:64A-1 et seq.) The New Jersey system of community colleges was established by statute in 1962, and the first county colleges were opened four years later in Atlantic, Cumberland, Middlesex, and Ocean counties. Today there are 19 institutions: one community college in each of 18 counties, and a bi-county college serving Somerset and Hunterdon counties.

They enroll more than 133,000 full-time and part-time students annually and provide access to higher education for a broad range of New Jersey residents who would otherwise be denied the advantages associated with a college education.

State aid is appropriated for county college operational costs and is distributed among the institutions by the State in consultation with the Council of County Colleges according to a formula that includes categorical support and differential funding based on program costs. Aid in amounts not to exceed one—half of project costs may also be provided for capital projects under P.L. 1971, Chapter 12. In addition, some fringe benefits costs of certain county college employees are paid by the State.

49. Miscellaneous Higher Education Programs. Includes three key programs that assist New Jersey's institutions of higher education, both public and private, in keeping pace with technological changes and responding to industry and work force needs. The \$50 million Higher Education Technology Bond fund will provide support for critical technology needs and will complement existing facility and equipment bond funds. The Equipment Leasing Fund Act (P.L. 1993, c. 136) established a \$100 million fund to finance the purchase of scientific, engineering, technical, computer, communications, and instructional equipment. The State pays three-quarters of the debt service on Equipment Leasing Fund bonds, and the colleges pay the remaining share. The Higher Education Facilities Trust Fund Act (P.L. 1993, c. 375) established a \$220 million fund to finance the construction, renovation or improvement of instructional, laboratory, communication, and research facilities. The State pays the entire cost of debt service on Higher Education Facilities Trust Fund bonds.

In addition, seek to ensure the full utilization of such network by all segments of our society regardless of income status or physical disabilities.
- 5. To ensure that New Jersey residents have economical and environmentally safe water supplies, that are provided through strict compliance with the State's Safe Drinking Water Act by all private and public water purveyors under the Board's jurisdiction.

6. To provide adequate, economical and efficient cable television service, with a degree of uniform operation, and the protection of the municipality in the franchise process. In addition, the Board will seek to ensure the responsiveness of cable operators to subscriber's complaints and needs, and the availability of competitively priced alternative television program packaging.

PROGRAM CLASSIFICATIONS

- 53. Division of the Ratepayer Advocate. Pursuant to N.J.S.A. 52:27E–50 et seq., the responsibilities of the Division of the Ratepayer Advocate are to represent the interests of New Jersey ratepayers before regulatory and legal tribunals and decision making bodies, establishing rates and State policies for the delivery of essential regulated services including gas, electric, telephone, water and sewer and cable television. The division is also responsible for the oversight and accounting of revenues received as statutory assessments from regulated utilities and the oversight of its expenditures.
- 54. **Utility Regulation.** The Board of Public Utilities controls, through its rate approval process, the charges paid by the public for gas, electric, water, sewer, telephone, telegraph, and pipeline services. A uniform system of accounts and quarterly and annual financial statements and reports are required for disclosure and to permit intelligent public participation in the process. Filings for both rate and fuel adjustment charge changes are approved only to generate sufficient revenues to cover allowable expenses and an equitable return on investment.

The Board assures the safety, adequacy and availability of utility services by conducting hearings which result in the promulgation of rules, regulations and orders, and their enforcement through inspections and investigations. Regular tests are conducted by engineering personnel to minimize the possibility of disruptions or

- discontinuance of essential services. A new Division of Service Evaluation was created in 1996 to ensure the safety and reliability of services as a result of the increase in the competition within the marketplace.
- 55. **Regulation of Cable Television.** Assists local jurisdictions in preparing legislation, franchise agreements and consents; regulates operating and competitive practices to assure reasonable uniformity, reliability, economy and quality of cable television services; cooperates with other states and the Federal government in promoting and coordinating beneficial uses of cable television through balanced programming, including local and educational services.

- 97. Regulatory Support Services. Provides economic analysis of conditions affecting regulated utilities to the Board of Public Utilities and its technical divisions and conducts audits of regulated utilities.
- 99. Management and Administrative Services. The Board of Public Utilities is a regulatory authority with a statutory mandate to ensure safe, adequate, and proper public utility service at the most equitable rates for all customers in New Jersey. Specifically, the Board has regulatory authority over the electric, gas, telecommunications, water and sewer, and cable television industries. To accomplish its mandate, the Board regulates rates for such utilities by conducting comprehensive reviews to determine the fairness and reasonableness of rates. The Board also has general supervisory responsibility for monitoring utility service, responding to utility consumer complaints and investigating utility accidents.

PROGRAM CLASSIFICATIONS

27. Other Distributed Taxes. Net proceeds from taxes on premiums for fire insurance policies written by insurance companies of other states and countries are earmarked for distribution to the New Jersey Firemen's Home and the New Jersey Firemen's Association (R.S.54:17–4).

The State is responsible for the collection of the Public Utilities Franchise Tax and the Public Utilities Gross Receipts Tax. These funds are distributed to municipalities on the basis of utility personal property valuations. A minimum distribution of \$685 million is required by law.

The State is responsible for the collection of certain insurance taxes, and for distribution of a portion of these taxes to the county in which a domestic insurance company's principal office was situated on January 1. Amounts are determined by increasing the total amount of the franchise tax on domestic insurance companies received by the county in the prior calendar year by the percentage rate of change of all taxes paid by all insurance companies pursuant to C.54:18A–1 et seq. for the current and the immediately preceding tax year.

- 28. County Boards of Taxation. A County Board of Taxation (R.S.54:3–1) is established in each county. Each board consists of three members, except in the first–class counties of Bergen, Essex and Hudson, the second–class county of Middlesex, and the fifth–class counties of Monmouth and Ocean, where there are five members. The board hears appeals of taxpayers from local tax assessments, certifies tax duplicates to the collectors, determines local tax rates, prepares county abstracts of ratables, promulgates equalization tables, supervises the activities of assessors and does related work in the enforcement of local property tax laws.
- 29. Locally Provided Services. Payments for local services to State property, in lieu of municipal property taxes on State property, are provided in certain cases as specified by annual appropriations laws. Payments on new State Building Authority projects and new State prisons, which began in Fiscal 1997, are proposed for integration into the Consolidated Municipal Property Tax Relief Aid program, funded under the Department of Community Affairs, in fiscal year 1998.

State aid to densely populated municipalities (P.L. 1990, c. 85; C.52:27D–384 et seq.), which is paid from the Property Tax Relief

- Tax Fund, is provided to a group of municipalities with high population densities, located in the state's most densely populated counties.
- 33. Homestead Exemptions. The Homestead Property Tax Rebate Act of 1990 (P.L. 1990, c. 61) entitles certain New Jersey homeowners and tenants to annual rebates of property taxes on their principal residence. Under modifications first effective in Fiscal Year 1993, senior citizen, blind and disabled homeowners and tenants with incomes up to \$70,000 receive rebates in the amount by which their property taxes, or rents constituting property taxes, exceed 5 percent of their income, up to a maximum \$500. Qualified homeowners in this income range receive a minimum rebate of \$150, while qualified tenants in this income range receive a minimum rebate of \$65. Qualified homeowners with incomes between \$70,000 and \$100,000 receive rebates of \$100, and qualified tenants in this income range receive rebates of \$35. Homeowners and tenants who are neither senior citizens, nor blind nor disabled, are eligible for rebates only if their income does not exceed \$40,000. In these circumstances, homeowners' rebates are \$90 and tenants' rebates are \$30. These payments are made by the State directly to homeowners and tenants, upon annual application, by the end of October. Homestead rebates are paid from the Property Tax Relief Fund.
- 34. Reimbursement of Senior/Disabled Citizens' and Veterans' Tax Exemptions. The State provides each municipality a direct payment in reimbursement of amounts deducted from the local property tax bills of senior citizens, disabled citizens and veterans. Based on certifications made annually by county boards of taxation and confirmed by the Director of the Division of Taxation, payments for the total amount due are made to municipalities on November 1 of each year. Veterans receive a \$50 tax deduction, paid from the Property Tax Relief Fund, while disabled and senior citizens receive a \$250 deduction, paid partly from the Property Tax Relief Fund and partly from the Casino Revenue Fund.
- 35. Consolidated Police and Firemen's Pension Fund. The Consolidated Police and Firemen's Pension Fund was established (R.S.43:16–1 et seq.) to place 213 police and firemen's pension funds on an actuarial basis. The liabilities of these local funds are now being shared, two–thirds by the participating municipalities and one–third by the State. The commission administering this fund consists of two police representatives, two fire representatives, the State Treasurer and four persons appointed by the Governor.
