DEPARTMENT OF ENVIRONMENTAL PROTECTION OVERVIEW

The Department of Environmental Protection (DEP) safeguards the environment through its permitting and enforcement activities, oversees the remediation of sites contaminated by hazardous waste, regulates the use of environmentally sensitive land, manages the State's parks and forests, protects and renews New Jersey's beaches, and preserves open space in the state. The fiscal 1999 Budget recommendation of \$304.7 million includes \$175 million in Direct State Services, \$58 million in State Aid, \$350,000 in Grants–In–Aid, and \$71 million in Capital. This represents an increase of \$11.7 million (4%) over the fiscal 1998 funding in these areas.

The Department's budget is organized along functional lines, including major sections for Natural Resources, Science and Technical Programs, Site Remediation, Environmental Regulation (Permitting), Environmental Planning and Administration, and Enforcement Policy. This display reflects the fact that the Department's media–based programs (e.g., air, water, etc.) provide services which have common characteristics and may be grouped under broad functional headings.

The fiscal 1999 Budget provides a total of \$119.3 million for Natural Resources programs, a 60% increase over fiscal 1998. This increase is due largely to a \$50 million State Aid initiative to encourage New Jersey localities to preserve open space. The Open Space Local Match program will provide match funding to localities that have established open space trust funds. Natural Resources' operations, including management of the State parks, are funded at \$51.3 million, and Capital is funded at \$18 million.

The funding recommendation for Science and Technical Programs is \$17.6 million. This represents a \$6.1 million decrease from fiscal 1998 and is due mostly to an adjustment made for a fiscal 1998 supplemental appropriation. The Department received a \$4.9 million supplemental appropriation for watershed monitoring and planning in fiscal 1998 which was actually due from the fiscal 1997 corporate business tax dedication. The fiscal 1999 recommended Budget adjusts for this double–year appropriation.

The Site Remediation program aims to protect human health and the environment by restoring contaminated sites. The fiscal 1999 Budget recommends a combined operating and capital budget of \$84 million for Site Remediation. The decrease of approximately \$25 million from fiscal 1998 is, again, attributable to adjustments made for double—year (fiscal 1997 and 1998) corporate business tax dedications appropriated in fiscal 1998. The Site Remediation program receives both capital and operating funds from the corporate business tax dedication, thus the adjustment in fiscal 1999 is reflected in both Direct State Services and Capital fund totals.

The fiscal 1999 Budget includes continuation funding of \$38.4 million for Environmental Regulation (i.e., permitting) operations, including programs in Air Pollution, Water Supply and Watershed Management, Water Pollution, Public Wastewater, Solid Waste Resource Management, Hazardous Waste Management, and Land Use Regulation.

Various management efficiencies have allowed DEP to reduce its fiscal 1999 need for Environmental Planning and Administration operations by \$1.2 million, resulting in a fiscal 1999 operating budget of \$16.2 million.

The fiscal 1999 Budget also provides continuation funding of \$22.1 million for DEP's Enforcement Policy programs. This includes a \$19.6 million Direct State Services budget and \$2.5 million in State Aid for administration of the County Environmental Health Act.

SUMMARY OF APPROPRIATIONS BY PROGRAM

40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT 42. NATURAL RESOURCE MANAGEMENT

OBJECTIVES

- 1. To provide recreational, historic, natural and interpretive facilities.
- 2. To develop recreational lands and facilities, located in balance with population distribution.
- To regulate the recreational use of public lands and minimize natural resource damage.
- 4. To provide safe marina facilities, navigational aids, and other services to the boating public.
- To provide the financial assistance and engineering technology that minimizes potential loss of life and property damage due to flooding.
- 6. To improve the forest environment to provide for multiple use and minimize forest damage from wildfire, insects and disease.
- 7. To manage fish and wildlife resources of the State for long-term biological, economic and recreational viability.
- To provide for the development of shore protection facilities and improvements, and to minimize personal and property damage resulting from tidal waters of the State.
- 9. To provide a system of highways, parkway roads, and bridges for the Palisades Interstate Park to facilitate travel through and within the park and ensure safe and efficient movement of traffic.

PROGRAM CLASSIFICATIONS

- 11. Forest Resource Management. The State Forestry Service manages and protects the rural and urban forest resources of New Jersey. The Forest Fire Service is mandated to prevent, manage and suppress wildfire on or threatening 3.1 million acres of State and private forest and wildlands of New Jersey. The Forest Service promotes forestry by providing both State and federal programs in urban and community forestry; forest products conservation and recycling; private non–industrial forest lands management; forest insect and disease control; forest conservation and education; reforestation and tree improvement; and State lands management.
- 12. Parks Management. Operates and maintains thirty—eight State parks, four marinas, twenty—seven historic facilities and other recreation, natural, and interpretive facilities in a clean, safe and non—discriminatory manner; staffs facilities with maintenance, administrative, ranger and seasonal personnel to provide assistance, information, interpretive and protective services to the public; manages properties to ensure the preservation of natural and historic resources while maintaining high quality recreational opportunities; plans for the development and improvement of new facilities and reviews and approves all new construction; provides literature regarding recreational facilities, natural area and historic preservation. Operates and maintains State marinas in a clean, safe

- and non-discriminatory manner for all boat owners and visitors. Safe moorings are provided for boaters during heavy storms.
- 13. **Hunters' and Anglers' License Fund.** Manages the wildlife resources of the State through programs of research, regulation, habitat development, land acquisition, law enforcement and public education. Trout and other species of fish, pheasants, and quail are reared at state hatcheries and game farms and released throughout the State; public lands are acquired and maintained for use as wildlife management areas. Regulations regarding hunting and fishing seasons are developed and licenses are sold to provide a source of revenue to manage the State's wildlife resources.
- 14. Shellfish and Marine Fisheries Management. Manages the marine shellfish and finfish resources of the State through research, monitoring, habitat protection, licensing and regulatory programs. Clam and oyster grounds are leased to commercial shellfishermen for aquaculture activities. Programs (relay and depuration) also provide for the safe utilization of shellfish from marginally polluted areas. Marine fisheries programs support the effective management of the numerous migratory species on a coastwide basis. An artificial reef program constructs fisheries habitat in ocean areas to enhance productivity, thus providing additional fishing and diving opportunities.
- 20. **Wildlife Management.** Conducts wildlife research to protect and manage the State's non–game endangered species. Additional responsibilities include permit review for wildlife possession, bird banding, scientific collection and public information.
- 21. **Natural Resources Engineering.** Develops, maintains, dredges and marks navigation channels on 200 miles of tidal inland waterways and large State—controlled lakes for the safety and protection of the boating public and industries. Provides financial assistance to local governments with the construction of groins, jetties, bulkheads, sea walls, and beach replenishment under the shore protection program, carries out various dam safety inspections, and administers flood control and harbor cleanup programs.
- 24. Palisades Interstate Park Commission. Operates and maintains existing parks and historic sites in a clean, safe, and non-discriminatory manner for all visitors; plans for the improvement and development of new facilities; maintains highways, bridges, landscaped areas, signs, and traffic lines to ensure the safety of the monitoring public. Enforces traffic laws on the Palisades Parkway and all other roads within the Commission's boundaries; polices Commission lands to ensure that park facilities are utilized in accordance with laws, statutes, and Commission regulations; maintains a police court with the powers and jurisdiction of a municipal court with respect to crimes, disorderly conduct, and violations of the motor vehicle and traffic or other laws of the State or of any of the rules and regulations of the Commission.

Notes:

- (a) The fiscal year 1998 appropriation has been adjusted for the allocation of salary program and has been reduced to reflect the transfer of funds to the Salary Increases and Other Benefits account.
- (b) Appropriations are not required because there are no longer funds available to pay administrative costs.

LANGUAGE RECOMMENDATIONS

An amount equivalent to 75% of receipts in excess of the amount anticipated from fees and permit receipts from the use of State park and marina facilities, and the unexpended balance as of June 30,1998 of such receipts, are appropriated for Parks Management, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of P.L.1985, c.533 (C.13:1E–99.1 et seq.) or any other law to the contrary, of the amount hereinabove for Parks Management \$725,000 is appropriated from the Clean Communities Fund to offset the cost of Parks' litter pickup program.

The amount hereinabove for the Green Acres Administration account is appropriated from the 1992 New Jersey Green Acres Fund and the 1992 New Jersey Green Trust Fund pursuant to the "Green Acres, Clean Water, Farmland and Historic Preservation Bond Act of 1992," P.L.1992, c.88, and the 1995 New Jersey Green Acres Fund and the 1995 New Jersey Green Trust Fund pursuant to the "Green Acres, Historic Preservation and Blue Acres Bond Act of 1995," P.L.1995, c.204, together with an amount not to exceed \$1,910,000 subject to the approval of the Director of the Division of Budget and Accounting, for the administration of the Green Acres program.

Receipts from police court, stands, concessions and self-sustaining activities operated or supervised by the Palisades Interstate Park Commission, and the unexpended balance as of June 30, 1998 of such receipts, are appropriated.

The amount hereinabove for the Hunters' and Anglers' License Fund is payable out of said Fund and any amount remaining therein and the unexpended balance as of June 30, 1998 in the Hunters' and Anglers' License Fund, together with any receipts in excess of the amount anticipated, are appropriated. If receipts to that fund are less than anticipated, the appropriation shall be reduced proportionately.

Pursuant to P.L. 1993, c.303, there is appropriated such sums as may be necessary to offset revenue losses associated with the issuance of free hunting and fishing licenses to active members of the New Jersey State National Guard. The amount to be appropriated shall be certified by the Division of Fish, Game and Wildlife and is subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove for the Endangered Species Tax Check-Off Donations account is payable out of receipts, and the unexpended balances in the Endangered Species Tax Check-Off Donations account as of June 30, 1998, together with receipts in excess of the amount anticipated, are appropriated. If receipts are less than anticipated, the appropriation shall be reduced proportionately.

An amount not to exceed \$1,329,000 is allocated from the capital construction appropriation for Shore Protection Fund Projects for costs attributable to planning, operation, and administration of the shore protection program, subject to the approval of the Director of the Division of Budget and Accounting.

An amount not to exceed \$280,000 is allocated from the capital construction appropriation for Shore Protection Fund Projects for the operation and maintenance of the Bayshore Flood Control facility.

The amount hereinabove for the Dam Repair Administrative Costs accounts is appropriated from "Green Acres, Clean Water, Farmland and Historic Preservation Bond Act of 1992," P.L.1992, c.88, together with an amount not to exceed \$99,000 subject to the approval of the Director of the Division of Budget and Accounting, for administrative costs related to this bond fund.

40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT 43. SCIENCE AND TECHNICAL PROGRAMS

OBJECTIVES

- To protect the public and the environment against unnecessary radiation exposure from natural and man-made sources.
- 2. To ensure a high quality of life for the residents of New Jersey by preserving, sustaining, protecting, and enhancing the air environment. Also, to provide program coordination to comply with state and federal mandates to attain air quality standards, conduct air monitoring, planning, analysis, and motor vehicle pollution control projects, and coordinate the development of regulations.
- 3. To undertake technical activities, policy development, and applied scientific research, associated with human and ecological exposure to toxic substances, as well as other critical environmental issues identified by DEP. To serve as DEP's primary unit for environmental assessment and risk analysis. These activities are designed to meet the department's information and problem–solving needs, and to identify current scientific needs which warrant the department's attention, as well as to proactively identify scientific issues and environmental problems before they become crises.
- 4. To map, research, and interpret scientific information regarding the State's geology and groundwater resources. This information supports the regulatory and planning functions of DEP and other governmental agencies and provides the business community and the public with the geologic and hydrologic information necessary to address environmental concerns and make economic decisions.
- To establish and maintain policies and procedures for the generation, compilation, review and use of data of documented quality, as required by the USEPA.
- 6. To certify the analytical capabilities of laboratories performing analyses in response to the State's environmental programs.
- To develop and coordinate implementation of watershed management programs, ground water protection programs, and water supply management, development, conservation and protection plans.
- 8. To develop and coordinate the implementation of the Coastal Zone Management and the National Estuary programs, including the Delaware, NY/NJ Harbor and Barnegat Bay Estuaries.
- To develop and coordinate water quality management planning functions, including water quality standards, wastewater management, point and nonpoint source pollution control and the restoration of aquatic habitats.

PROGRAM CLASSIFICATIONS

01. Radiation Protection. Identifies the location and character of natural and man-made radiation sources, determines the exposure pathway and biological impact of those sources (including major

- nuclear facilities), and provides direction on remediation options. Controls the possession, transportation, use and storage of radioactive materials, and plans for the prevention and remedy of mass exposure, including evacuation, containment and decontamination. This unit also registers and inspects x–ray machines and radioactive material users, licenses x–ray technologists, nuclear medicine technologists, and radon testers and mitigators. Establishes and maintains policies and procedures for the generation, compilation, review and the use of data of documented quality, as required by the USEPA. Reviews data submitted to the department to verify its quality and determine its usability. Certifies the analytical capabilities of laboratories performing analyses in response to the State's environmental programs.
- 02. **Air Pollution Control.** Ensures a high quality of life for the residents of New Jersey by protecting and enhancing the air environment. Provides program coordination in compliance with state and federal mandates to attain air quality standards. Conducts air monitoring, planning and analysis, as well as motor vehicle pollution control projects and the development of regulations.
- 05. Water Supply and Watershed Management. Administers the Division of Science and Research's component of the federal and state safe drinking water programs.
- 07. Water Monitoring and Planning. Conducts ambient statewide freshwater quality monitoring (surface, ground water and sediment), marine ambient surface water quality monitoring, statewide biological monitoring (AMNET), and assessments in support of NJPDES permit issuance, water quality inventory reporting, water quality planning, and enforcement actions. Conducts water quality surveys in support of program needs. Operates the State's biological and aquatic toxicological programs. Develops regulations for toxicity testing and certification in the biological program. Manages the lakes restoration and grant assistance programs. Develops, operates and maintains water quality data base systems for both government and public access. Coordinates the development and integration of biological criteria into state water quality standards. Classifies shellfish growing areas as approved or condemned, and conducts bacteriological and chemical analysis of shellfish for health hazard prevention.
- 15. Land Use Regulation. Protects and manages the State's land and water resources through planning activities related to the Coastal Zone Management Program (including implementation of the Coastal Area Facility Review Act or CAFRA, coastal wetlands and water development laws) and management of stormwater through the Stream Encroachment and CAFRA laws.
- 18. **Science and Research.** Environmental Assessment and Risk Analysis: Provides a fundamental science foundation for a wide range of departmental policies, actions and standard–setting activities. Develops scientific information and innovative manage

ment strategies by performing environmental assessments and risk analyses; scientific investigations and technical assessments of toxic and carcinogenic contaminants; human health and ecological risk assessments; applied research and technical evaluations; comprehensive review and assessment of the current state of scientific knowledge on specific issues; scientific connections for dealing with cross-media contaminants; new economically-based environmental management approaches; innovative technologies for remediation of hazardous waste sites; and effective risk communication techniques. Identifies emerging environmental strategies and issues and develops them for departmental implementation. Develops human health criteria for toxic contaminant standards in potable water, ground water, surface water and soil. Leads DEP's implementation of the National Performance Partnership System (NEPPS) and development of New Jersey's environmental indicators system. Office of Innovative Technology and Market Development: Seeks to enhance New Jersey's environment and to position the State more favorably in the global environmental technology marketplace by stimulating the growth and acceptance of innovative environmental technology products and services in the State, enhancing the network of New Jersey's academic, government and business communities toward environmental protection and economic development, and developing policies and programs designed to link environmental protection and economic development. In addition, seeks to help the State improve its economic base and enhance the creation of private sector, non-regulatory jobs that benefit the environment.

22. Water Quality Management. The New Jersey Geological Survey as part of the Division of Water Resources, maps the geology and topography of the State, assesses offshore mineral resources and dredging, maintains a cooperative monitoring program with the

- United States Geological Service (USGS) and reviews plans for underground storage of gas, oil and chemicals, high level radioactive wastes and disposal wells. Also evaluates the supply potential and water quality of the State's aquifers, maintains a statewide geohydrologic database, maps aquifer recharge and wellhead protection areas, investigates groundwater pollution problems, and supports other State and municipal programs through geophysical studies, groundwater investigations, and the use of Geographic Information System (GIS) technology.
- 29. Environmental Remediation and Monitoring. On November 5, 1996, the voters of New Jersey approved an amendment to the State Constitution which dedicates 4% of the revenue annually derived from the tax imposed pursuant to the "Corporation Business Tax Act" (P.L.1945, c.162)to the Watershed Protection Fund, for the following purposes: financing the cost of water quality point and non–point source pollution monitoring, watershed–based water resource planning and management, and non–point source pollution prevention projects.
- 90. Environmental Policy and Planning. Conducts planning regarding watershed management, water quality, water supply, coastal zone management, stormwater management and planning requirements associated with the federal Clean Water Act, including water quality standards, water quality assessment, water pollution control management planning, and allocation of pollutant loadings. Also, conducts other related planning activities, including the relationship of such programs to the State Development and Redevelopment Plan. Coordinates, through the Office of Program Coordination, the review and issuance of comments on all environmental impact statements for major projects required by the National Environmental Policy Act and the Governor's Executive Order on environmental assessments.

- Notes: (a) The fiscal year 1998 appropriation has been adjusted for the allocation of salary program and has been reduced to reflect the transfer of funds to the Salary Increases and Other Benefits account.
 - (b) State appropriations of \$830,000 are reallocated to Statewide Program 47. Enforcement Policy in fiscal 1999.
 - (c) Supplemental appropriation in fiscal year 1997 corresponds to language appropriation.
 - (d) Federal appropriations of \$1,126,000 are reallocated from Statewide Program 47. Enforcement Policy in fiscal 1999.

LANGUAGE RECOMMENDATIONS

There is allocated from the "Commercial Vehicle Enforcement Fund", established pursuant to section 17 of P.L.1995, c.157 (C.39:8-75), such sums as may be necessary to fund the costs of the regulation of the Diesel Exhaust Emissions program, subject to the approval of the Director of the Division of Budget and Accounting.

There is allocated from the Motor Vehicle Inspection Fund, established in subsection j. of R.S. 39:8-2 such sums as may be necessary to administer and implement the Inspection and Maintenance program, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove for the Hazardous Waste Research account is appropriated from interest earned by the New Jersey Spill Compensation Fund for research on the prevention and the effects of discharges of hazardous substances on the environment and organisms, on methods of pollution prevention and recycling of hazardous substances, and on the development of improved cleanup, removal and disposal operations, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove for the Nuclear Emergency Response account is payable from receipts received pursuant to the assessments of electrical utility companies under P.L.1981, c.302 (C.26:2D-37 et seq.), and the unexpended balances as of June 30, 1998 in the Nuclear Emergency Response account, together with receipts in excess of the amount anticipated, not to exceed \$814,000, are appropriated, subject to the approval of the Director of the Division of Budget and Accounting.

Such sums as may be necessary are appropriated from the dedicated Low Level Radioactive Waste Fund to the Department of Environmental Protection for administrative costs, which shall be solely responsible for providing administrative support to the Low Level Radioactive Waste Disposal Facility Siting Board, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove for the Environmental Remediation and Monitoring program classification shall be provided from revenue received from the Corporation Business Tax, pursuant to the "Corporate Business Tax Act," P.L.1945, c.162 (C.54:10A-1 et seq.), as dedicated by Article III, Section II, paragraph 6 of the State Constitution. The unexpended balance as of June 30, 1998 in the Water Resources Monitoring and Planning-Constitutional Dedication account is appropriated, subject to the approval of the Director of the Division of Budget and Accounting.

40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT 44. SITE REMEDIATION

OBJECTIVES

- To remediate sites contaminated by man-made hazardous substances and pollutants to protect human health and the environment and to restore contaminated areas of the State for beneficial use.
- To identify the universe of potential remediation sites including currently known and suspected discharge sites, regulated underground storage tank sites, industrial establishments as defined pursuant to ISRA, non-operating landfills, and RCRA facilities.
- 3. To rank sites which need remediation, in order of their risk to humans and the environment, so as to address the "worst sites" first.
- 4. To coordinate responses to major discharges involving hazardous substances and pollutants and to take immediate action to mitigate adverse impacts to human health and the environment, especially where water supplies are endangered.
- To respond to emergency discharges of hazardous substances and pollutants in the State, and to operate the Department's communication center so that environmental emergencies can be reported by the public.
- To maximize the use of private-party funds by having responsible parties conduct remedial work with Department oversight, or to pay the Department to conduct remedial work.
- To develop and implement clear, consistent and predictable regulations for conducting remediations in the State in order to provide direction to the regulated community and the Department.
- To compensate persons impacted by discharges of hazardous substances through the environmental claims program, supported by the Spill Compensation Fund, and to administer the Sanitary Landfill Contingency Fund claims program.

PROGRAM CLASSIFICATIONS

19. **Publicly–Funded Site Remediation.** Conducts a statewide program for the cleanup of sites contaminated by hazardous substances by planning, managing and overseeing site remediations

- where a responsible party cannot be identified or is either unable or unwilling to voluntarily participate. The program can through amendments to the Spill Fund Compensation and Control Act (P.L. 1979, c.346) to respond to a broad class of hazardous substance discharges. The major ramifications of these amendments are the ability to identify and remedy abandoned contaminated sites, and the mitigation of discharges that pose risk to human health or the environment. Remedial projects generally go through the following project cycle: Preliminary Assessment/Site Investigation; Remedial Investigation; Design; Construction; and Operation and Maintenance. These activities are supported by a combination of federal (Superfund) and State funds.
- 27. Responsible Party Site Remediation. Conducts a statewide program for the cleanup of sites contaminated by hazardous substances through oversight of remediations conducted by private parties. Works with parties willing to remediate a site under the state's voluntary cleanup program or the state's risk—based cleanup program. Provides oversight to assure that appropriate standards and technical requirements are met. The division handles cleanups from low to high complexity under the authority of the State Spill Compensation and Control Act, ISRA, Underground Storage of Hazardous Substances Act and the Water Pollution Control Act. The program also provides management assistance and coordination of remedial activities at National Priority List/Hazardous Site—Cleanups where the project lead is assumed by the federal Environmental Protection Agency, Department of Defense or Department of Energy.
- 29. Environmental Remediation and Monitoring. On November 5, 1996, the voters of New Jersey approved an amendment to the State Constitution which dedicates 4% of the revenue annually derived from the tax imposed pursuant to the "Corporation Business Tax Act" (P.L.1945, c.162), for the following purposes: funding, in the form of loans or grants, the upgrade, replacement or closure of underground storage tanks, including the cost of remediation; and financing the costs of the remediation of discharges of hazardous substances.

Notes: (a) The fiscal year 1998 appropriation has been adjusted for the allocation of salary program.

(b) The Industrial Site Recovery Act program has been reallocated to the Hazardous Discharge Site Cleanup Fund's appropriated receipts in fiscal 1999.

LANGUAGE RECOMMENDATIONS

In addition to site specific charges, the amount hereinabove for the Publicly–Funded Site Remediation and the Responsible Party Site Remediation program classifications, excluding the Hazardous Discharge Site Cleanup Fund–Responsible Party, and the Underground Storage Tanks accounts, is appropriated from the New Jersey Spill Compensation Fund, in accordance with the provisions of P.L.1976, c.141 (C.58:10–23.11 et seq.), together with an amount not to exceed \$4,501,000, for administrative costs associated with the cleanup of hazardous waste sites, subject to the approval of the Director of the Division of Budget and Accounting.

There is appropriated from the Hazardous Discharge Fund of 1986, created pursuant to section 14 of the "Hazardous Discharge Fund Bond Act of 1986," P.L.1986, c.113, an amount not to exceed \$566,000 for administrative costs associated with the cleanup of hazardous waste sites, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove for the Spill Prevention, Response and Site Cleanup, Non–Site Specific Costs account is appropriated from the New Jersey Spill Compensation Fund, together with receipts in excess of those anticipated, not to exceed \$684,000, subject to the approval of the Director of the Division of Budget and Accounting.

In addition to the federal funds amount hereinabove for the Publicly–Funded Site Remediation program class, such additional sums that may received from the federal government for the Superfund Grants program are hereby appropriated.

There are appropriated from the New Jersey Spill Compensation Fund such sums as may be required for cleanup operations, adjusters and paying approved claims for damages in accordance with the provisions of P.L.1976, c.141 (C.58:10–23.11 et seq.), subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove for the Hazardous Discharge Site Cleanup Fund–Responsible Party account is appropriated from responsible party cost recoveries deposited in the Hazardous Discharge Site Cleanup Fund, together with an amount not to exceed \$8,264,000, for administrative costs associated with the cleanup of hazardous waste sites, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove for the Environmental Remediation and Monitoring program classification shall be provided from revenue received from the Corporation Business Tax, pursuant to the "Corporate Business Tax Act," P.L.1945, c.162 (C.54:10A–1 et seq.), as dedicated by Article III, Section II, paragraph 6 of the State Constitution. The unexpended balance as of June 30, 1998 in the Cleanup Projects Administrative Costs—Constitutional Dedication account is appropriated, subject to the approval of the Director of the Division of Budget and Accounting.

Receipts derived from the sale of salvaged materials are appropriated to offset costs incurred in the cleanup and removal of hazardous substances.

40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT 45. ENVIRONMENTAL REGULATION

OBJECTIVES

- 1. To assure a safe and dependable supply of water.
- 2. To monitor and report on the biological, chemical and physical quality of surface waters, ground waters and sediments in the State. To monitor NJPDES permit compliance in order to develop water quality standards and programs and to evaluate the effectiveness of existing regulatory programs for the protection and improvement of New Jersey's water quality.
- 3. To make decisions that carry out the purposes and requirements of the enabling legislation and regulations.
- 4. To conduct reviews of permit applications in a manner that promotes meaningful public input.
- 5. To develop procedural and regulatory changes as well as non-regulatory studies and outreach efforts to expand the utilization of pollution prevention, the protection of critical watersheds from cumulative negative impacts, and the consideration of the State Development and Redevelopment Plan in the Department's decision-making.
- To help permit applicants to comply with applicable requirements and promptly inform them when such compliance does not seem possible.
- 7. To find opportunities to make permit reviews efficient while maintaining or improving protection of the environment, to eliminate procedures and requirements that do not lead to greater environmental protection, and to consolidate the reviews of multiple permits for individual facilities or projects.
- 8. To use available wastewater funds to improve and protect water quality.
- To implement a statewide solid waste planning process with emphasis on source reduction, recycling and market development activities; to conduct comprehensive reviews of permit applications for solid waste, hazardous waste, recycling and composting facilities.

PROGRAM CLASSIFICATIONS

- 02. Air Pollution Control. Reviews construction plans for new and modified stationary sources of potential air pollution and issues permits for construction and certificates to operate; validates tax exemption claims for air pollution control equipment; oversees the conduct of stack tests to determine air contaminant emissions; reviews continuous emission monitoring specification and results; reviews and conducts air quality modeling studies of major new sources of air contamination; reviews and issues facility—wide operating permits for major existing sources of air pollution.
- 05. Water Supply and Watershed Management. Administers the federal and state safe drinking water programs, the well drilling permit program and the water allocation program to ensure a safe and reliable water supply. As part of the Safe Drinking Water program, will administer Drinking Water State Revolving Fund (DWSRF). The DWSRF will include a financing program for water supply projects, along with set asides for capacity development, training for licensed operators and source water protection activities.
- Water Pollution Control. Administers the New Jersey Pollutant Discharge Eliminations System (NJPDES) program, which protects

- New Jersey's ground and surface water quality by assuring the proper treatment and discharge of stormwater and wastewater from various types of facilities and activities. To accomplish this, permits are issued limiting the mass and concentration of pollutants which may be discharged into ground water, streams, rivers and the ocean. Management of residuals and the oversight of local pretreatment programs are also administered through the NJPDES program. This program also regulates the construction of wastewater treatment facilities and sewer lines.
- 09. Public Wastewater Facilities. Administers the New Jersey Wastewater Treatment Financing program along with the New Jersey Wastewater Treatment Trust, an independent State financing authority. The program provides loans to local government units for the construction of wastewater treatment facilities through funds available under the federal Clean Water Act and various State bond acts. Projects eligible for financial assistance include water and wastewater treatment plant upgrades or improvements, facilities for the beneficial reuse and treatment of sewage sludge, collection and conveyance facilities, on-site system rehabilitation, infiltration/inflow correction, combined sewer overflow and interconnection/ cross-connection abatement projects. The Division of Water Quality and the Water Supply program are working in conjunction with the New Jersey Environmental Infrastructure Trust on the implementation of a Drinking Water State Revolving Fund (DWSRF) program. The DWSRF will include a financing program for water supply projects, which will be similarly structured to that of New Jersey's Wastewater Treatment Financing Program.
- 15. Land Use Regulation. Protects and manages the State's land and water resources through the administration of riparian, waterfront development, stream encroachment, Coastal Area Facility Review Act (CAFRA), coastal wetlands and freshwater wetlands laws and regulations.
- 17. Solid Waste Resource Management. Supervises the collection, transportation, processing, reduction and disposal of solid waste. Supervises the solid waste collection industry to promote effective competition and to prohibit anti-competitive practices. Regulates and oversees mergers, acquisitions and long term financing arrangements of the solid waste utility industry. Regulations and standards for solid waste industries are implemented through on–site construction inspections, design reviews, monitoring and the permitting of collection, processing and disposal operations. Develops and implements comprehensive statewide management plans and reviews and monitors district solid waste management plans. Develops and implements a recycling program, and provides grants and loans pursuant to the Solid Waste Services Tax program and the Resource Recovery and Solid Waste Disposal Facility Bond Act.
- 23. Hazardous Waste Management. Regulates the generation, storage, collection, treatment and disposal of hazardous waste. Regulations and standards for hazardous waste industries are implemented through on–site construction inspections, design reviews, monitoring and the permitting of collection, processing and disposal operations. Administers parts of the federal Resource Conservation and Recovery Act of 1976 (RCRA). Pollution Prevention is responsible for promoting multi–media awareness and the incorporation of pollution prevention concepts into all Environmental Regulation permitting programs.

Notes:

- (a) The fiscal year 1998 appropriation has been adjusted for the allocation of salary program and has been reduced to reflect the transfer of funds to the Salary Increases and Other Benefits account.
- (b) Appropriation is not required because there are no longer funds available to pay administrative costs.
- (c) Appropriation for Drinking Water State Revolving Fund Administrative Costs is included in the federal funds section of the Water Supply and Watershed Management program class.
- (d) Appropriation for the Clean Water State Revolving Fund Administrative Costs is included in the federal funds section of the Public Wastewater Facilities program class.

LANGUAGE RECOMMENDATIONS

The amounts hereinabove for the Administrative Costs Water Supply Bond Act of 1981 – Water Supply Management; Watershed and Aquifer; and Planning and Standards accounts are appropriated from the "Water Supply Bond Act of 1981," P.L.1981, c.261, together with an amount, not to exceed \$1,311,000, for costs attributable to administration of water supply programs, subject to the approval of the Director of the Division of Budget and Accounting.

In addition to the federal funds amount hereinabove for the Water Supply and Watershed Management program class, such additional sums that may received from the federal government for the Drinking Water State Revolving Fund program are hereby appropriated.

Any funds received by the Wastewater Treatment Trust from any State agency to offset the Trust's annual operating expenses are appropriated.

In addition to the federal funds amount hereinabove for the Public Wastewater Facilities program class, such additional sums that may be received from the federal government for the Clean Water State Revolving Fund program are hereby appropriated.

The amount hereinabove for the 1992 Wastewater Treatment Fund account is appropriated from the 1992 Wastewater Treatment Fund, created pursuant to the "Green Acres, Clean Water, Farmland and Historic Preservation Bond Act of 1992," P.L.1992, c.88, together with an amount not to exceed \$1,455,000, for costs attributable to the administration of wastewater treatment system projects, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove for the Sanitary Landfill Facility Contingency Fund – Administration account, is appropriated from the Sanitary Landfill Facility Contingency Fund, together with an amount not to exceed \$168,000, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove for the Administration of Resource Recovery and Solid Waste Disposal Facility Fund account is appropriated from the Resource Recovery and Solid Waste Disposal Facility Fund, together with an amount not to exceed \$55,000, for administrative costs related to the Resource Recovery and Solid Waste Disposal Facility program, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of P.L.1981, c.278 (C.13:1E–92 et seq.), as amended by P.L.1985, c.533, the amount hereinabove for the Recycling of Solid Waste account is appropriated from the State Recycling Fund, together with an amount not to exceed \$379,000, for the administration of the Recycling of Solid Waste program, subject to the approval of the Director of the Division of Budget and Accounting. If receipts are less than anticipated, the appropriation shall be reduced proportionately.

Notwithstanding the provisions of P.L.1985, c.533 (C.13:1E–99.1 et seq.) or any other law to the contrary, all sums in the Clean Communities Account Fund, other than the amount appropriated from the fund for Parks Management to offset the cost of Parks' litter pickup program, shall be distributed as grants to municipalities and counties in accordance with the same criteria used for distribution of grants from the fund pursuant to the fiscal year 1996 appropriations act, P.L.1995, c.164, as determined by the Director of the Division of Budget and Accounting in consultation with the Commissioner of the Department of Environmental Protection.

There are appropriated from the State Recycling Fund and the Clean Communities Account Fund such sums as may be required to carry out the provisions of the "Clean Communities and State Recycling Act," P.L.1981, c.278, as amended by P.L.1985, c.533 (C.13:1E–92 et seq.).

There are appropriated from the Sanitary Landfill Facility Contingency Fund such sums as may be required to carry out the provisions of the "Sanitary Landfill Facility Closure and Contingency Fund Act," P.L.1981, c.306 (C.13:1E–100 et seq.).

Receipts deposited to the Resource Recovery Investment Tax Fund and the Solid Waste Services Tax Fund are appropriated.

The unexpended balance as of June 30, 1998 in the Major Hazardous Waste Facilities Siting Act-Siting Commission account is appropriated.

The amount hereinabove for the Pollution Prevention account is appropriated from receipts received pursuant to the "Pollution Prevention Act," P.L.1991, c.235 (C.13:1D–35 et seq.), together with an amount not to exceed \$561,000, subject to the approval of the Director of the Division of Budget and Accounting, for administration of the Pollution Prevention program. If receipts are less than anticipated, the appropriation shall be reduced proportionately.

Notwithstanding the provisions of sections 5 and 6 of P.L.1995, c.188 (C.26:2C–9.5 and 26:2C–9.6), Air Surcharge Reengineering fees, and the unexpended balance as of June 30, 1998 not to exceed \$100,000, are appropriated for costs attributable to Air Reengineering Projects.

40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT 46. ENVIRONMENTAL PLANNING AND ADMINISTRATION

OBJECTIVES

- To develop administrative policy, evaluate performance and coordinate program activities.
- 2. To support activities related to departmental planning, auditing, and legislative services.
- To support a communication program which imparts the Department's mission to the public and to encourage public participation in the decision—making process.
- To support the Department and its objectives in terms of the control of personnel, financial resources, general services, information systems and equipment.

PROGRAM CLASSIFICATIONS

26. Regulatory and Governmental Affairs. Coordinates the proposal and adoption of environmental rules and regulations. Serves as

- central point of contact regarding State and federal legislation. Develops and executes public information, environmental education and communications strategies for the Department's programs. Serves as liaison to the Legislature as well as all county and municipal governmental officials.
- 99. Management and Administrative Services. The Commissioner's office sets policies and develops short and long range plans and strategies; coordinates with governmental agencies; and provides legislative review and legal analysis. Provides, under the direction of the Assistant Commissioner of Management and Budget: general support services including personnel, payroll, purchasing, data processing, printing, training, word processing, program evaluation, and property control; and financial management, including budget, accounting, as well as responsibility for the fiscal control and financial monitoring of all General State Fund monies, federal funds, bond funds and tax accounts.

Notes: (a) The fiscal year 1998 appropriation has been adjusted for the allocation of salary program and has been reduced to reflect the transfer of funds to the Salary Increases and Other Benefits account.

(b) The fiscal 1998 appropriation has been reduced by \$841,000 to reflect the transfer of DEP's Bureau of Revenue to Treasury's Division of Revenue. The corresponding fiscal 1997 appropriation continues to be reflected in DEP.

40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT 47. ENFORCEMENT POLICY

OBJECTIVES

- To protect public health and improve the environment by ensuring compliance with the State's rules and regulations concerning coastal and land use, air pollution, water resources, solid and hazardous waste, pesticides and toxic release prevention programs.
- 2. To assure consistency in enforcement policies, protocols and actions taken by the Department.
- 3. To provide compliance assistance to all businesses, with a special emphasis on small businesses and local governments.
- 4. To augment the Department's enforcement, inspection and monitoring activities under the County Environmental Health Act by strengthening agreements with local health agencies to enforce environmental regulations.
- To improve the quality of the State's beaches through cooperation with the Departments of Correction and Health and the Army Corps of Engineers in programs which reduce floatable debris and monitor ocean water quality.
- 6. To inspect, monitor, and report on the quality of surface and groundwater discharges in the State.
- To protect the public and the environment of the State from any hazards resulting from the production, use, sale, storage or other activities related to pesticides.
- 8. To augment the health and welfare of the public by providing a comprehensive program to prevent releases of petroleum products and hazardous substances and by providing information regarding hazardous substances in the community and the workplace.
- To survey hazardous substances inventory data from 33,000 facilities and actual release data of hazardous substances from 700 facilities.
- 10. To submit risk management plans detailing how to manage the risks involved with the handling and storage of extraordinarily hazardous

substances whose release in the environment could cause death or permanent disability.

PROGRAM CLASSIFICATIONS

- 02. Air Pollution Control. Conducts investigations to determine compliance with the Air Pollution Control Act at regulated facilities. Issues enforcement documents and tracks, records and reports on associated administrative activities to ensure compliance. Develops enforcement cases, processes violations, assesses penalties and negotiates compliance schedules for these programs.
 - Release Prevention. Implements and ensures compliance with New Jersey's Community Right To Know and SARA Title III programs which gather information on the use, storage and release of toxic chemicals in the State and make information available to the public. Implements and ensures compliance with the "Toxic Catastrophe Prevention Act" to identify companies which handle extraordinarily hazardous substances and ensure that procedures are in place to prevent devastating accidental chemical releases. The Discharge Prevention Containment and Countermeasures (Oil Spill Prevention) program reduces the possibility of hazardous spills through plan submittals and compliance/investigative procedures.
- 04. **Pesticide Control.** Regulates the manufacture, distribution, storage, sale, possession, and use of pesticides. Complaint investigations and routine inspections are conducted. Compliance assistance and pollution prevention activities are performed through training and outreach. All pesticide products sold in the State are registered with this program. Pesticide applicators and dealers are certified and licensed, and permits are issued for mosquito/fly control and aquatic pesticide use. Monitoring and evaluation of pesticide hazards and laboratory analysis of pesticide samples are also conducted.
- 08. Water Pollution Control. Responsible for providing compliance assistance, conducting monitoring and investigations and issuance of enforcement actions in support of the water programs. The focus is particularly on inspections of wastewater dischargers and community drinking water supply facilities; prevention and

- correction of situations of non-compliance through a multifaceted compliance assistance program including outreach, education, and a Discharge Monitoring Report guidance manual; issuance of administrative and judicial enforcement actions for chronic or significant violations; and investigation of complaints relating to water resources. Monitors compliance with all permits issued under the New Jersey Pollutant Discharge Elimination System (NJPDES) for surface water, ground water and indirect discharges to Publicly–Owned Treatment Works (POTW's). Formal enforcement actions are also issued for violations in the Water Allocation Program and against State certified laboratories which fail to comply with the laboratory certification program requirements.
- 15. Land Use Regulation. Conducts investigations and site inspections required to ensure compliance with State regulations and permits issued pursuant to the Freshwater Wetlands Protection Act, the Flood Hazard Area Control Act, the Coastal Area Facility Review Act, the Wetlands Act of 1970, the Dam Safety Act, and the Waterfront Development and Riparian Lands statutes. Responding

- to reports of alleged violations of the above statutes, the program advises individuals how to achieve and/or maintain compliance.
- 17. **Solid Waste Resource Management.** Manages compliance and enforcement activities directed at ensuring that solid waste is collected, transported and disposed of in an environmentally acceptable manner and in a competitive marketplace. Activities include such compliance assistance functions as environmental audits and grace periods as well as conventional inspections and investigations, and when necessary, formal enforcement actions.
- 23. Hazardous Waste Management. Manages and conducts compliance and enforcement activities directed at ensuring that hazardous waste is collected, stored, transported and disposed of in an environmentally acceptable manner. Assures compliance with federal Resource Conservation and Recovery Act (RCRA) regulations. Activities include such compliance assistance functions as environmental audits, grace periods and supplemental environmental projects as well as conventional inspections and investigations, and when necessary, formal enforcement actions.

 - (b) State appropriations of \$830,000 are reallocated from Statewide Program 43. Science and Technical Programs in fiscal 1999.
 - (c) Federal appropriations of \$1,126,000 are reallocated to Statewide Program 43. Science and Technical Programs in fiscal 1999.

LANGUAGE RECOMMENDATIONS

Notwithstanding the provisions of the "Worker and Community Right to Know Act," P.L.1983, c.315 (C.34:5A-1 et seq.), the amount hereinabove for the Worker and Community Right to Know Act account is payable out of the Worker and Community Right to Know Trust Fund, and receipts in excess of the amount anticipated, not to exceed \$222,000, are appropriated. If receipts to that fund are less than anticipated, the appropriation shall be reduced proportionately.

The amount hereinabove for the Oil Spill Prevention program is payable out of Spill Compensation Fund, and the receipts in excess of those anticipated, not to exceed \$947,000, from the New Jersey Spill Compensation Fund for the Oil Spill Prevention program are appropriated, in accordance with the provisions of P.L.1990, c.76 (C.58:10-23.11f2 et seq.), P.L.1990, c.78 (C.58:10-23.11d1 et seq.), and P.L.1990, c.80 (C.58:10-23.11f1), subject to the approval of the Director of the Division of Budget and Accounting.

The unexpended balance as of June 30,1998 in the Operation Clean Shores account is appropriated.

Receipts deposited into the Coastal Protection Trust Fund pursuant to P.L.1993, c.168 (C.39:3-27.47 et seq.) are appropriated in an amount not to exceed \$600,000 for the cleanup or maintenance of beaches or shores, an amount not to exceed \$200,000 for the cost of providing monitoring, surveillance and enforcement activities of the Cooperative Coastal Monitoring Program, an amount not to exceed \$50,000 for the implementation of the "New Jersey Adopt a Beach Act," P.L.1992, c.213 (C.13:19-22 et seq.), and an amount not to exceed \$150,000 for a program of grants for the operation of a sewage pump-out boat and the construction of sewage pump-out devices for marine sanitation devices and portable toilet emptying receptacles at public and private marinas and boat yards in furtherance of the provisions of P.L.1988, c.117 (C.58:10A-56 et seg.). Receipts deposited to the Coastal Protection Trust Fund in excess of \$1,000,000 are appropriated to finance emergency shore protection projects and the cleanup of discharges into the ocean.

174,829	24,393	386	199,608	189,607	Total Appropriation, Department of			
					Environmental Protection	184,886	175,012	175,012

DEPARTMENT OF ENVIRONMENTAL PROTECTION

The amounts hereinabove for the Safe Drinking Water Fund account are payable out of receipts, and receipts in excess of the amount anticipated, not to exceed \$897,000, are appropriated, subject to the approval of the Director of the Division of Budget and Accounting. If receipts are less than anticipated, the appropriation shall be reduced proportionately.

The amounts hereinabove for the Tidelands Peak Demands account are appropriated from receipts derived from the sales, grants, leases, licensing, and rentals of State riparian lands, together with an amount not to exceed \$1,365,000, subject to the approval of the Director of the Division of Budget and Accounting. If receipts are less than anticipated, the appropriation shall be reduced proportionately.

Notwithstanding the provisions of P.L.1997, c.235,(C.58:10A-37.22) receipts derived from the repayment of any outstanding loans made from the State Underground Storage Tank Improvement Fund are hereby anticipated.

Notwithstanding any other law, the Commissioner of the Department of Environmental Protection shall obtain concurrence from the Director of the Division of Budget and Accounting before altering fee schedules or any other revenue-generating mechanism under the department's purview.

Notwithstanding the provisions of the "Environmental Fee Fund Accountability Act of 1991," P.L.1991, c.426 (C.52:27B-20.1 et seq.) and P.L.1991, c.427 (C.13:1D-9.1 et seq.), all revenues from fees and fines collected by the Department of Environmental Protection, unless otherwise dedicated herein, shall be deposited into the State General Fund without regard to their specific dedication.

Notwithstanding any other provisions in this act, of the Federal Fund amounts hereinabove appropriated for the programs included in the Performance Partnership Grant Agreement with the Environmental Protection Agency, the Department of Environmental Protection is hereby authorized to reallocate the appropriations, in accordance with the Grant Agreement and subject to the approval of the Director of the Division of Budget and Accounting.
