### INTERDEPARTMENTAL ACCOUNTS OVERVIEW

The Interdepartmental Accounts provide funds for the cost of certain services which are administered centrally on behalf of all agencies of State government. The programs supported by these funds include property rentals, insurance, utilities, employee benefits such as pensions and health benefits, salary contract funding and a contingency reserve. The fiscal 1999 recommendation totals \$1.3 billion.

The Property Rentals account provides for payment of rents for existing and anticipated leases of offices and other facilities used by State agencies. This account also subsumes lease-purchase rental agreements for buildings whose titles will pass to the State upon the final lease payment. The debt service associated with the State's lease-purchase of facilities acquired or built by authorities such as the New Jersey Building Authority, Sports and Exposition Authority, Mercer County Improvement Authority and the Economic Development Authority or private parties is also included in the Rent Account. Properties acquired or built by authorities are not considered as ratable properties and payments in lieu of taxes are also made available through the Rent Account.

The Property Rentals Budget recommendation is an increase of \$31.9 million from fiscal 1998. Driving this increase in the area of leasing is \$5.4 million in costs for new space attributable to expanding programs, and \$2.2 million in costs for consolidation efforts. Other increases include \$21.7 million for the New Jersey Building Authority for debt service costs and a \$3.0 million increase in debt service for the Economic Development Authority. Offsetting these increases is a \$898,000 decrease in other debt service leases and tax payments.

The Insurance and Other Services Account includes funding for insurance premiums for property, casualty, and special insurance policies for the State of New Jersey. The insurance policies provided include various items such as coverage to insure against loss to State–owned real and personal property, boilers and machinery, fine arts and liability. The insurance accounts also provide self–insurance funds to cover claims that may be brought against a State entity as a result of negligence resulting in injury or death to a person or damage to or loss of property (Tort Claims Liability), employees' medical costs (Workers' Compensation), vehicle liability claims for property damage and for injuries resulting from the negligent operation of a State vehicle by its employees (Vehicle Claims Liability), payment of losses within the deductible areas of primary insurance coverage (Self–Insurance Deductible), and payment of claims and expenses arising out of the operation of the Foster Parent Program (Self–Insurance Fund–Foster Parents).

The fiscal 1999 recommendation for Insurance and Other Services is a decrease of \$4.2 million from fiscal 1998. The majority of this decrease, \$2.1 million is in Workers' Compensation funding. Savings are anticipated from continued effective medical management of claims and the implementation of a coordinated program for the control of workplace injuries through a statewide safety initiative. Also, contributing to the decrease are reductions of \$1.5 million in Vehicle Claims Liability and \$630,000 in property premium costs.

The Utilities and Other Services account funds the fuel, utility, janitorial and trash removal costs for the Capitol Complex facilities and the Camden Aquarium. The fiscal 1999 recommendation is an increase of \$16.9 million from fiscal 1998. An amount of \$15 million is recommended for operating expenses of the Sports and Exposition Authority. An increase of \$2.3 million is necessary for management agreements for buildings that will be fully occupied in fiscal 1999. Offsetting this increase, is a decrease of \$450,000 to the State in electric costs from the increased competition engendered by the de-regulation of electricity.

This Budget recommendation also assumes savings from the Green Lights Program which entails the sale of bonds by the Economic Development Authority to provide funding for the installation of energy efficient lighting, fans and motors in State and lease–purchase facilities. Projects eligible for funding under this program must demonstrate pay back of energy savings. Debt service payments to support this bond sale are made through the Property Rentals Budget. The utility companies will provide the State with incentive payments (standard offer payments) in fiscal 1999. These payments will be made available to the utility account through appropriation language.

The Employee Benefits Budget of \$786.4 million funds a variety of pension accounts, health benefits accounts, Social Security Tax, and unemployment and temporary disability insurance accounts. These accounts have been adjusted for the block grant the State proposes to make available to the New Jersey public colleges and universities. This grant will provide continued funding for all employee benefits previously paid for by the State. Fiscal 1997 and 1998 financial information has been adjusted to reflect the impact this grant would have had if it had been in place during these years and to allow for comparability.

For the seven State retirement systems and other special retirement acts the recommendation is \$122.8 million, or \$76 million below the fiscal 1998 appropriation. This reduction is due, in part, to bonding of unfunded pension liabilities and the application of pension fund surpluses to reduce the State's contribution based upon the fiscal 1997 State Pension Security Plan. The fiscal 1999 recommendation of \$405.1 million for health benefits includes medical insurance, prescription drugs, dental insurance and

### INTERDEPARTMENTAL ACCOUNTS

vision care. This recommendation represents a \$112.8 million increase over the fiscal 1998 appropriation primarily due to surplus offsets that were available to reduce the State's contribution in 1998. The recommendation of \$257 million for Employer Taxes includes \$243.8 million for Social Security Tax, \$7.4 million for unemployment insurance, and \$5.8 million for temporary disability insurance. The fiscal 1999 budget for employee benefits also includes \$1.5 million in fringe benefit costs relating to various agency initiatives.

In addition, the State appropriates funds for several other interdepartmental needs. These needs include \$15.3 million for the statewide 911 emergency telephone system, and \$33.9 million for the Year 2000 changes related to departmental information processing systems, OTIS maintained systems, telecommunication and building facilities. The remaining interdepartmental needs for fiscal 1999 include \$5.0 million for the centralized automated revenue interface for the procurement process, \$4.0 million to implement a seamless solution for statewide efficiency and effective management of human resource information and \$12.6 million for several smaller programs that cross interdepartmental areas.

Finally, \$96.3 million is recommended to support the bargaining agreements with the employee unions. The recommendation for salary increases and other benefits does not include funding for higher education senior public institutions. This Budget also includes continuation funding of \$4.5 million for unused accumulated sick leave payments. An offsetting reduction of \$12.2 million will be achieved through a variety of statewide efficiency initiatives. Hence, the fiscal 1999 Budget recommends a net of \$88.6 million for employee salary increases and other benefits.

- 02. **Insurance and Other Services.** Provides funds to pay all central insurance premium costs and to cover the State's liability in tort and its statutory duty to indemnify its employees for adverse judgments in all instances where the State is self insured. This account also provides the self–insurance funds to pay losses which fall within the deductible areas of property insurance coverage and other insurance claims.

Funds are also provided for the payments for non-contributory group life insurance covering employees of the State and other participating employers in the retirement system (C43:15A-1 et seq.); the State's share of Social Security Tax (C43:22-1 et seq.); Pension Adjustment Act (C3:3B-1 et seq.) providing increases in benefits payable to members of State retirement systems; and the employer's share of health benefits charges for State employees enrolled in the public and school employees' health benefits program. Under C52:14-17.25 et seq., the administration of this program was transferred to the Division of Pensions and Benefits.

The State Employee Health Benefits Program (C52:14–17.25 et seq.) provides health insurance for State employees and their dependents through a traditional plan or a managed care health plan.

The Division of Pensions and Benefits coordinates payment of temporary disability insurance benefits to State employees (C43:21–46). Temporary cash benefits are provided to eligible State employees covered under Federal law to insure against loss of earnings due to non–occupational sickness or accident.

All individuals in the employ of the State of New Jersey or an instrumentality of the State, with respect to service performed after December 31, 1971 for a hospital or institution of higher education are covered under the Unemployment Compensation Law (RS 43:21–1 et seq., as amended by PL 1971, c. 346). Any political subdivision of the State may elect to cover individuals employed by the subdivision in all of the hospitals and institutions of higher education operated by that political subdivision. Benefits paid based on wages earned in the employ of the State or of a political subdivision are financed by payments in lieu of employer contributions to the Unemployment Compensation Fund. All covered State employees are required to contribute each year to the Fund in accordance with the established rate. Benefits under the unemployment compensation program are payable in accordance with the provisions of the Unemployment Compensation Law.

The New Jersey State Prescription Drug Program (C52:14–17.29) helps meet the cost of drugs prescribed for eligible employees and their dependents for use outside of hospitals, nursing homes or other institutions. Included are those drugs which, as required by Federal law, can be dispensed only upon a written prescription order by a physician. The program covers the full cost of a prescription item dispensed by a licensed participating pharmacy, less a co–payment charge for each eligible prescription and prescription refill, with no co–pay for mail order. The co–payment charge is dependent upon whether the employee chooses a prescription which is generic or non–generic. All full time State employees are eligible to enroll for coverage in the Program without cost to the employee.
