Instructions for Schedule PT

Purpose

Schedule PT is a standalone schedule for dividends that were included by the taxpayer in entire net income in one tax year and the taxpayer paid tax on those dividends, and those dividends are again being included in the taxpayer's entire net income this year. For example, the taxpayer included deemed dividends in entire net income and paid the Corporation Business Tax in tax year 1, and in tax year 2 the dividends were actually paid out and the taxpayer included the same dividends in entire net income. To prevent the same dividends from being taxed twice, Schedule PT allows taxpayers an additional exclusion if they provide documentation substantiating that they already included those dividends in entire net income and paid tax to New Jersey.

A taxpayer is only allowed this exclusion if the taxpayer filed a Corporation Business Tax return in the previous year(s), the taxpayer had included the dividend in their entire net income, and paid tax to New Jersey. If those dividends reduced the taxpayer's Net Operating Losses/Net Operating Loss Carryovers, a rider must be attached that details the amounts. The additional exclusion is only for the amount of dividends actually included in entire net income and is not allowed if the dividends had previously been excluded. See [N.J.A.C. 18:7-5.20](#) for more information.

Example: A taxpayer included 50% of deemed dividends from a less than 80% owned subsidiary in entire net income in tax year 1 on their CBT-100 return and paid tax in tax year 1. In tax year 2, the subsidiary paid the dividends on those same amounts to the taxpayer. In tax year 2, the taxpayer would complete Schedule PT and would exclude 100% of those dividends since the taxpayer already paid the Corporation Business Tax on those dividends in tax year 1. The taxpayer must provide supporting documentation showing clear evidence to the satisfaction of the Director that the taxpayer already included those dividends in entire net income and paid more than the minimum tax in a prior tax year. Such supporting documents include a previously filed CBT-100, CBT-100S, CBT-100U, BFC-1, Form CBT-DIV 2017 and CBT-DIV 2017 Supplemental, federal IRC section 965 repatriation statements, etc.

Schedule PT is to be completed before completing Schedule R.

NEW FOR 2023 Beginning with Tax Year 2023, GILTI is treated as a dividend. If GILTI has been previously taxed you can take a credit using Schedule PT. You cannot amend a previously filed return to include GILTI as a dividend.

Instructions for Part I

Include the name of the subsidiary(ies) from which the taxpayer received the dividends or deemed dividends in a prior tax year that were included in entire net income and on which tax was paid to New Jersey, but only if those same dividends are being included in entire net income a second time in the current tax year. The taxpayer must substantiate the prior dividend inclusion with valid proof in the form of past years' tax returns and the statements evidencing the dividend inclusions. Include only dividends that have been previously taxed by New Jersey. Do not include any federal previously taxed income that was not taxed by New Jersey. Investments in U.S. property under I.R.C. § 959 are not dividends or deemed dividends. Do not include dividends and deemed dividends that were never taxed by New Jersey. These are not previously taxed dividends for New Jersey purposes.

If a taxpayer had dividends that were included in entire net income on a previously filed New Jersey CBT-100, CBT-100S, CBT-100U, or BFC-1 and those dividends reduced the taxpayer's Net Operating Losses/Net Operating Loss Carryovers, a rider must be attached that details the amounts. These dividends are considered previously taxed dividends for purposes of this schedule.

Enter the amounts from Schedule PT onto the appropriate lines of Forms CBT-100, CBT-100S, or CBT-100U.
